

Manager – Utilities – Power & Water Operations NAURU

- Build Your International Experience
- Accomplished power / water sector Manager
- \$145,000 per annum plus benefits – 2 year contract

PACTAM deployees share the ethos of Australian Volunteers International.

Restore and sustain reliability and security of power and water supply services through planned and regular asset maintenance and control for Nauru - a Pacific Island nation with a population of approximately 10,000 people. Reporting to the CEO of the Nauru Utilities Authority, you will develop and implement maintenance plans for key assets and equipment critical to sustaining power and water supplies; develop and implement a capacity building program for technical staff at the power station in operational planning, safety and standards, maintenance and installation while also ensuring the improvement of essential record keeping in generation capacity, water production and dispatch capacities.

If this sounds like the role for you, please call and tell us about your background including the following key points:

- Extensive work experience in the power sector and water sector.
- Your experience in international country bidding procurement for power and/or water projects
- Your expertise in the management building of capacity of teams and sound knowledge of reform strategies and change management in the workplace.
- Your reputation for achievement due to your highly developed communication, stake-holder management and cross-cultural skills
- Your relevant tertiary qualifications in electrical engineering, mechanical engineering or power system planning.

This position is part of the Pacific Technical Assistance Mechanism (PACTAM), which places highly-skilled deployees in the Pacific to assist local employers to meet their human resource needs and contribute to building capacity in the workplace. The remuneration package includes an allowance of AUD\$145,000, plus housing, vehicle, relocation, airfares and insurance.
