

MARSHALLS ENERGY COMPANY Inc.

VACANCY ANNOUNCEMENT

Opening Date: March 21st, 2019. Closing Date: April 25th, 2019.

Senior Power Plant Mechanical Supervisor

Salary: US\$ package dependent upon Qualifications and Experience

Location: Majuro Atoll, Republic of the Marshall Islands.

Duties and Responsibilities: Reporting to the Management team of MEC, the applicant will be responsible for:

- The safe and efficient operation, maintenance and overhaul of all mechanical systems within the utility on a daily basis.
- To initiate and monitor procurement of mechanical service items
- The supervision and skill enhancement of local staff
- Implement policies, rules, and regulations of the corporation
- Assisting with the transition of remote plants to hybrid systems
- Maintain, control and further develop maintenance procedures for all operations
- Perform other duties or projects as required or as assigned by management.

Qualifications: A Minimum of 10 years experience in similar industry work is essential and with experience in isolated locations preferable. A qualification in Mechanical Maintenance Engineering or any combination of equivalent experience deemed appropriate by management is required. A knowledge of computerized maintenance management systems and performance of major engine overhauls and repairs such as 40,000 hour rebuilds of industrial engines and ancillary equipment is a requirement. A knowledge of steam, refrigeration air-conditioning and water generation equipment as well as hydraulic and pneumatic systems is required. We operate diesel fuel engines rated at 10,000Hp and smaller. The generators are made by Deutz, Wartsila, Cat, Cummins, Peilstik plus others with the Deutz units being the base load engines.

Applications: Send a complete resume by mail, fax, or email to:
