

Nauru Utilities Corporation (NUC) Adviser, Nauru

We are looking for a highly experienced Adviser that will work closely with the NUC Executive Management Group to strengthen capacity to envision, formulate, implement, monitor, evaluate and report the organisation's medium-to-long term plans.

- Full time 12-month contract with an option to extend.
- Accompanied role with a competitive remuneration and benefits package.
- Applicants from this position may be used to establish a merit list for similar roles in other Pacific Island Countries.

The Australia-Pacific Partnerships Platform (The Partnerships Platform) is looking for motivated and skilled professionals who are keen to make a difference. We seek passionate staff who work collaboratively to deliver ideas and advice that can help our Pacific Island Country partners meet their governance and stability goals.

The Partnerships Platform is seeking an experienced and motivated **Nauru Utilities Corporation (NUC) Adviser-Nauru** to be based in Nauru with a proven track record in providing high level technical advice to NUC executives that supports the management and oversight of NUC operations including maintaining the reliability, security and sustainability of services. The ideal candidate is a collaborative, respectful, flexible and resilient Adviser with a keen focus on strengthening the NUC's organisational management, operation and staffing framework.

The role will contribute towards the NAPEG's overall objective and intermediate and end of program outcomes, which are aligned with Nauru's National Sustainable Development Strategy 2019-2030. Specifically, the role will include but is not limited to the following objectives and core responsibilities:

- Strengthen the NUC's organisational management, operation and staffing framework: conduct a comprehensive diagnostic review of NUC's operational environment:
- Strengthen legal and regulatory compliance enacted by legal institutions and development partners.
- Provide technical advice to NUC executive that supports the management and oversight of NUC operations including maintaining the reliability, security and sustainability of services.
- Analyse and identify any deficiencies, gaps or incongruence in the areas of interest that hinder NUC's performance and achieving operational sustainability.
- Make recommendations to achieve short- and long-term goals and objectives of the NUC
- Assist with developing and delivering plans to ensure the financial sustainability of the NUC

- Support reporting by NUC against / progress on implementation of the NUC's Executive Management Plan
- Support NUC to ensure compliance with requirements of the Nauru Utilities Act 2011 and Public Enterprise Act 2021.

This role requires an initial 12 weeks in country and a minimum of 14 days per quarter thereafter in country, with the remaining days working remotely in a part-time capacity. Arrangements will be subject to agreement with the NUC CEO.

about You

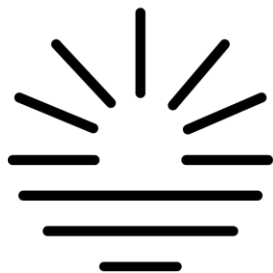

To be successful in this role, you will have Tertiary qualification in engineering, business administration, or equivalent experience and training with proven minimum of 15 years' experience in advisory role, five at senior management level with an ability to fit in with the culture, work environment and make a significant contribution to NUC. Experience in providing technical advice on utilities management to a non-technical audience and knowledge of power generation, transmission and distribution systems would be desirable.

How to Apply
