

Marshalls Energy Company

JOB POSTING | DIRECTOR OF PETROLEUM

Join Our Progressive Energy Management Team: Are you looking to impact the energy sector with forward-thinking strategies in petroleum management? MEC, the heart of energy supply in the Republic of the Marshall Islands, invites you to apply for the position of Director of Petroleum. As a pivotal member of our management team, you will lead initiatives that drive the sustainable and efficient supply of petroleum products to the neighboring islands of the Marshall Islands.

Job Summary: MEC is in search of a full-time Director of Petroleum to oversee and manage petroleum product acquisition, storage, distribution, and sales operations. Reporting to the Chief Executive Officer, this vital role entails strategy development to ensure energy security, cost-effectiveness, and adherence to environmental standards.

To apply, please submit your resume and cover letter online at <https://mecrmi.com/jobs/petroleum-director/>

Essential Qualifications (experience, skills, education, certification, etc.):

- 10 years of professional work experience, including five years in management/supervisory responsibilities, with technical and practical experience related to petroleum is required.
- A relevant undergraduate degree; a master's degree in a related field is advantageous.
- Demonstrated qualification and employment history with a petroleum entity.
- Familiarity with RMI regulations pertinent to petroleum storage and distribution.
- Demonstrated leadership and interpersonal skills.
- Excellent oral and written communication skills in English and the ability to prepare and present concise reports and presentations.
- Demonstrable experience in a challenging office environment; able to work efficiently under pressure.
- Excellent multitasking, management, and deadline-meeting abilities.
- Proficiency in Microsoft Office Suite: Word, Excel, and PowerPoint.
- A collaborative spirit, positive outlook, and meticulous attention to detail.

Valued but not required qualifications:

- Advanced certifications in energy management or petroleum engineering.

Key Responsibilities:

- Effectively manage the petroleum division of MEC.
- Develop and implement strategic plans for petroleum sourcing and distribution.
- Ensure compliance with environmental and safety regulations.
- Provide periodic reports and analyses to MEC Management and the Board of Directors.
- Oversee the creation and negotiation of contracts related to MEC's petroleum-related activities.
- Collaborate with RMI stakeholders and international partners to enhance MEC's petroleum operations.

About MEC: MEC is a state-owned utility that owns and operates power generation and distribution grids. We supply electricity to consumers in Majuro Atoll, as well as other Atolls and Islands across the RMI. In addition to our established electrical services, we proudly own and operate a petroleum tank farm and offer a comprehensive range of petroleum products, ensuring holistic energy solutions for our customers. At MEC, we foster a collaborative environment that encourages individual performance, innovation, and creativity. We take pride in offering competitive compensation and benefits. For more information about our company, please visit our website at www.mecrmi.com. We appreciate all applicants' interest, but only those selected for an interview will be contacted.
