

MARSHALLS ENERGY COMPANY Inc.

VACANCY ANNOUNCEMENT

Opening Date: February 28, 2026. Closing Date: March 31st, 2026.

Position.

Senior Power Plant Mechanical Supervisor

Salary.

US\$ package dependent upon Qualifications and Experience. (Includes housing, airfares, vehicle, pension plan, life insurance, state health plan)

Location.

Majuro Atoll, Republic of the Marshall Islands. (An Atoll Nation located between Hawaii & Guam). Base of operations will be Majuro Atoll with visits to other sites as required.

Duties and Responsibilities.

Reporting to the Management team of MEC, the Senior Power Plant Mechanical Supervisor will be responsible for all mechanical generation equipment and staff at more than 10 existing locations within the country and covering:

- The safe and efficient operation, maintenance and overhaul of all mechanical systems within the utility, (primarily the power generation diesel generators).
- To initiate and monitor procurement of mechanical service items
- The supervision and skill enhancement of local staff
- Implement policies, rules, and regulations of the corporation
- Assisting with the transition of remote island power plants into hybrid power systems
- Maintain, control and further develop maintenance procedures for all operations
- Perform other duties or projects as required or as assigned by management.

Qualifications.

A Minimum of 10 yrs experience in similar industry work is essential and with experience in isolated locations preferable. A qualification in Mechanical Maintenance Engineering or similar is required. Past performance of major engine overhauls rebuilding of industrial engines and ancillary equipment is a requirement. The position requires a large amount of hands-on-tools leadership and guidance with the local staff. Machine shop and welding skills are required due to location isolation. Computer management and inventory skills are also required. We currently operate 25+ diesel fuel engines rated from 10,000HP to 20HP over all power plant locations. The generators are made by Deutz (BV16M640), Wartsila (UD25), CAT (3616, 3512), Cummins (KTA50G9), along with multiple models of backup generator sets in other areas.
